

Help us keep **recyclables** out of the landfill by using your blue commingle cart and your blue box. Questions? Please call us at **736-3600**.

www.sanipac.com

*Leaving 4 feet between each container and other obstacles provides the clearance our truck's automated arm needs to safely reach your cart and blue box.

 Printed on paper made of 100% post-consumer waste.

More Hints From Your Hauler

Recycling (and yard debris, if you have that service) is picked up every other week on the same day your garbage is picked up. Refer to the enclosed schedule or visit www.sanipac.com/residential. Some other tips:

- Bag dust and lightweight items that might blow out of the truck.
- Danger - hot ashes in a container can melt them or start fires!
- Place all items at the curb by 7 a.m. on your designated day.
- Please remember that our truck's clamp needs room to move. Keep your containers 4 feet from each other and other obstacles such as trees or cars.

Our website has illustrations showing how to place your containers on parking strips and driveways and at the curb. Visit www.sanipac.com/residential.

**We're doing
our part, too!**

Our job is to help Eugene and Springfield by picking up your waste. You are doing your part by recycling over 50% of the wastestream. We're doing ours by putting biodiesel in all our trucks!

Yard Debris *(Eugene only)*

Eugene yard debris carts are collected every other week, opposite the recycling schedule. We can only accept things that grow above the ground, and they must be loose. Do not bag yard debris. We cannot accept items like rocks, soil or pet waste because they contaminate the yard debris.

Holidays

Sanipac takes six holidays a year:

- New Year's Day
- Labor Day
- Memorial Day
- Thanksgiving Day
- 4th of July
- Christmas Day

We will still pick up your material, but our service will be one day later for the rest of the holiday week – even Saturday for Friday's customers.

Trash

While many items are recyclable, some things belong in your garbage can. Put items in the trash if they aren't shown on the front side of this flyer, but remember: hazardous and biomedical waste require separate disposal methods. If you have questions about what goes in your trash, please contact us.

Thank you for being our customer! Call us at (541) 736-3600
